

3 Great Tools to Help you Control Your Money

Keeping track of your money just got easier with Scotiabank Alerts and Credit Card Controls.

There are 2 types of Alerts to help you manage your finances day to day – Transaction Alerts and Security Alerts.

Transaction Alerts send real time notifications by email or the Scotia Mobile App whenever one of the following types of transactions is conducted:

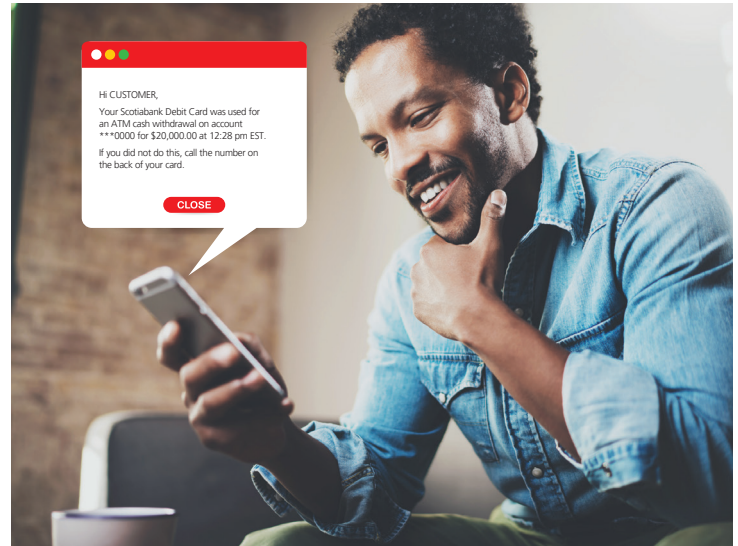

- ATM Withdrawals
- Credit / Debit Card Purchases
- Purchase without the Credit Card present
- Credit Card authorized outside of country
- Deposit account balance (daily or weekly)
- Transfers to Others
- Bill Payment

Make sure to review all your transaction Alerts as they can help you monitor any unauthorised activity. You can also receive Alerts for future dated payments to remind you of upcoming charges to your account.

All Scotia OnLine or mobile banking customers will automatically receive Security Alerts. These Alerts are related to the access of your online banking account and include changes to your profile.

A list of Security Alerts are below:

- My Profile update
- Sign in from a new device
- User blocked
- Password Modification
- Security Question update
- Access code / Change
- Payee (Add / Change)
- Recipient (Add / Change)

Credit Card(s)	Status	Limit per transaction\$	Allowed transaction
