THE BANK OF NOVA SCOTIA JAMAICA LIMITED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JULY 31, 2011

1. Identification

The Bank of Nova Scotia Jamaica Limited (Bank) is a 100% subsidiary of Scotia Group Jamaica Limited which is incorporated and domiciled in Jamaica.

Scotia Group Jamaica Limited is a 71.78% subsidiary of the Bank of Nova Scotia which is incorporated and domiciled in Canada and is the ultimate parent.

2. Basis of presentation

These consolidated financial statements have been prepared in accordance with and comply with International Financial Reporting Standards (IFRS). New and revised standards that became effective this year did not have any material impact on the financial statements and the accounting policies are consistent with those applied in the audited financial statements for the year ended October 31, 2010. These financial statements are presented in Jamaican dollars, which is the Group's functional currency.

Basis of consolidation

The consolidated financial statements include the assets, liabilities, and results of operations of the Bank and its subsidiaries presented as a single economic entity. Intra-group transactions, balances, and unrealized gains and losses are eliminated in preparing the consolidated financial statements.

Comparative information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year. The Statement of Income for 2010 was restated to reclassify actuarial gains and losses on the defined benefit pension plan from other comprehensive income, in order to comply with IFRS.

3. Financial Assets

The Group classifies its financial assets in the following categories: financial assets at fair value through profit and loss; loans and receivables; held-to-maturity; and available-for-sale financial assets. Management determines the classification of its investments at initial recognition.

Financial Assets at Fair Value through Profit and Loss

This category includes a financial asset acquired principally for the purpose of selling in the short term or if so designated by management.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money or services directly to a debtor with no intention of trading the receivable.

Held-to-Maturity

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity.

Available-for-sale

Available-for-sale investments are those intended to be held for an indefinite period of time, and may be sold in response to needs for liquidity or changes in interest rates or equity prices.

Available-for-sale investments and financial assets at fair value through profit and loss are carried at fair value. Loans and receivables are carried at amortised cost using the effective interest method. Gains and losses arising from changes in the fair value of trading securities are included in the statement of revenue and expenses in the period in which they arise. Gains and losses arising from changes in the fair value of available-for-sale financial assets are recognized directly in the statement of comprehensive income. Interest calculated using the effective interest method is recognized in the statement of revenue and expenses.

THE BANK OF NOVA SCOTIA JAMAICA LIMITED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS JULY 31, 2011

4. Pledged Assets

Assets are pledged as collateral for inter-bank borrowings and clearing house transactions.

	Ass	set	_	Related Liability		
\$000	2011	2010		<u>2011</u>	2010	
Securities with other financial						
institutions and clearing house	605,824	543,098		-		
_	605,824	543,098	_	-		

5. Insurance and investment contracts

Insurance contracts are those contracts that transfer significant insurance risks. Such contracts may also transfer financial risk. As a general guideline, the Group defines as significant insurance risk, the possibility of having to pay benefits at the occurrence of an insured event that is at least 10% more than the benefits payable if the insured event did not occur.

6. Loan loss provision

IFRS loan loss provision is established on the difference between the carrying amount and the recoverable amount of loans. The recoverable amount being the present value of expected future cash flows, discounted based on the interest rate at inception or last reprice date of the loan. Regulatory loan loss provisioning requirements that exceed these amounts are maintained within a loan loss reserve in the equity component of the statement of financial position.

7. Employee benefits

The Group operates a defined benefit pension plan, the assets of which are held in a separate trustee-administered fund.

Defined benefit pension plan- the pension costs are assessed using the projected unit credit method. Under this method, the cost of providing pensions is charged to the statement of income in such a manner as to spread the regular cost over the service lives of the employees in accordance with the advice of the actuaries. The asset or liability is the difference between the present value of the defined benefit obligation at the reporting date and the fair value of plan assets, adjusted for unrecognised actuarial gains/losses and past service costs.

Other post-retirement obligations – The Group provides post retirement healthcare and group life insurance benefits to retirees. This is measured based on the present value of the estimated future cash outflow, using estimated discount rates based on market interest rates.

8. Deferred taxation

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts.

9. Property, plant and equipment

All property, plant and equipment are stated at cost less accumulated depreciation.

10. Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents include notes and coins on hand, unrestricted balances held with Bank of Jamaica, amounts due from other banks, and highly liquid financial assets with original maturities of less than three months, which are readily convertible to known amounts of cash, and are subject to insignificant risk of changes in their fair value.

11. Segment reporting

The Group is organized into five main business segments:

- Retail Banking incorporating personal banking services, personal customer current accounts, saving deposits, credit
 and debit cards, customer loans and mortgages;
- Corporate and Commercial Banking incorporating non-personal direct debit facilities, current accounts, deposits, overdrafts, loans and other credit facilities and foreign currency transactions;
- Treasury incorporating the Bank's liquidity and investment management function, management of correspondent bank relationships, as well as foreign currency trading;
- Insurance Services incorporating the provision of life and medical insurance, individual pension administration and investment management;
- Other operations of the Group comprise non trading entities.

Transactions between the business segments are on normal commercial terms and conditions. The Group's operations are located mainly in Jamaica.

12. Subsequent Event

On August 12, 2011 at an extraordinary annual general meeting, preference shareholders of The Bank of Nova Scotia Jamaica Limited voted in favor of the scheme of arrangement to redeem the variable rate redeemable preference shares at a price of \$1.20 for each cancelled preference shares. The scheme of arrangement has now been approved by the Court.
